

Reckless Sleepers are one of the foremost exponents of devised theatre in the UK. Their use of process and varied models for devising and developing material are central to their work. The book is designed as a working document for academics and practitioners, as well as for people with a wider interest in creativity. Within it, creative director Mole Wetherell and artist/academic Andrew Brown identify particular strategies the company have devised or adapted in the process of generating performance and other artistic and pedagogical outcomes.
